PROFILE

SAP Data and Analytics consultant with 9+ years across BW, BW/4HANA, Datasphere and Business Data Cloud design. At HCLTech, working on BW modernization and Datasphere / BDC target architecture for an S/4HANA finance landscape, alongside RFPs, RFIs and proofs of concept. Experience across telecom, manufacturing and healthcare distribution, with a focus on practical modernization, dependable reporting and Clean Core principles.

CORE EXPERTISE

Business Data Cloud: Target architecture, data products, BW Data Product Generator, modernization roadmaps, Delta Sharing architecture concepts.

Datasphere: Spaces and connections, Cloud Connector and DP Agent, replication flows, SQL and graphical views, analytic models, Data Access Controls and task chains.

Analytics Cloud: Stories, live and import connections, SAC Planning, data actions, allocations, versions, roles and security.

BW / BW/4HANA: Conversion readiness, ADSOs, CompositeProviders, Open ODS Views, transformations, DTPs, process chains, delta handling, LSA++ and performance tuning.

Business AI: SAP Business AI Platform and Generative AI certifications; finance reporting use cases and AI-ready data product design.

Delivery: Architecture, RFP/RFI solutioning, estimation, workshops, validation, UAT, cutover, ChaRM, Azure DevOps, SQL, HANA modelling and ABAP reading/debugging.

EXPERIENCE

HCLTech | Senior Consultant, SAP Data and Analytics | 2024 - Present

SAP Practice: Pre-sales and Solution Architecture

- Presented BDC target architecture and BW modernization options; contributed to five RFP/RFI responses with architecture, solution approach, estimates and resourcing.
- Delivered a four-week Datasphere and SAC proof of concept with six SQL views, five graphical views, analytic models, connectivity, replication flows and an SAC Planning layer. Demonstrated it to clients twice.
- Wrote proposal content covering two BW modernization options, including the BW Data Product Generator route and a BPC-to-SAC Planning path.

EXPERIENCE, CONTINUED

HCLTech | Global telecom finance engagement | 2024 - Present

- Presented the Datasphere and BDC target architecture and BW modernization roadmap. Datasphere work is in an early phase alongside BW/4HANA.
- Supported in-place BW 7.5 on HANA conversion to BW/4HANA, with sandbox conversion and remediation of 35+ legacy objects in a two-to-three-week readiness window.
- Validated BW data after RISE with SAP migration and checked reporting after cutover across five core finance areas.
- Supported BPC 2021 upgrade, closing 15+ defects. Implemented IFRS 18 model changes with a 30-test-case validation set.
- Reduced a data flow from approximately six minutes to two by tuning ABAP logic behind BPC flow derivation. Mentor two junior team members.

NTT DATA Services | SAP BI / BW Consultant | 2017 - 2024

- **Manufacturing, 2023-2024:** Defined BW/4HANA target architecture using LSA++ layering, ADSOs, Open ODS Views and CompositeProviders. Delivered reporting, requirements workshops, design specifications, UAT and go-live handover.
- **Healthcare distribution, 2020-2023:** Defined BW architecture and modernization path. Automated sales tracing reporting, reducing manual workload by 40%. Developed flows, transformations, DTPs, queries and inventory reporting; supported loads and incidents.
- **Aerospace and manufacturing, 2017-2020:** Automated report-to-database comparison checks across HANA, BW, WebI, Tableau and Power BI. Progressed from testing to BW development, HANA modelling and production support.

PROFESSIONAL CREDENTIALS

Credential details and verification links are available on LinkedIn.

- Solution Architect - SAP Business AI Platform
- Data Architect - SAP Business Data Cloud; SAP Business Data Cloud
- Data Analyst - SAP Analytics Cloud
- Data Engineer - SAP HANA; Data Engineer - SAP BW/4HANA
- Generative AI Developer
